TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

July 7, 2017

CERTIFIED MAIL #7012 1010 0003 7402 1241
RETURN RECEIPT REQUESTED

Mr. Burgess Stengl
Environmental Manager
Blue Ridge Landfill TX, LP
P.O. Box 879
Fresno, Texas 77545

Re: Compliance Documentation Needed for:
Blue Ridge Landfill, 2200 FM 521 Rd., Fresno (Fort Bend County), Texas 77545
TCEQ Municipal Solid Waste Permit No.: 1505A
Investigation No.: 1400999

Dear Mr. Stengl:

On March 14, 2017, Mr. Richard Blackney of the Texas Commission on Environmental Quality (TCEQ) Houston Region Office conducted an investigation of the above-referenced regulated entity to evaluate compliance with applicable requirements for municipal solid waste. Enclosed is a summary which lists the investigation findings.

By letter dated June 21, 2017, the TCEQ Houston Region Office requested that you submit information to us within 30 days of its receipt verifying that the outstanding alleged violation referenced in the enclosed summary has been corrected.

The TCEQ appreciates your assistance in this matter and looks forward to receiving your response. If you or members of your staff have any questions regarding these matters, please feel free to contact Mr. Blackney in the Houston Region Office at (713) 767-3718.

Sincerely,

A handwritten signature in cursive script that reads "Alma L. Jefferson".

Alma L. Jefferson, Team Leader
Waste Section
Houston Region Office

ALJ/RLB/rsv

Enclosure: Summary of Investigation Findings

SUMMARY OF INVESTIGATION FINDINGS

**Blue Ridge Landfill
2200 F.M. 521, Fresno (Fort Bend County), TX 77545
Municipal Solid Waste Permit No. 1505A
MSW Complaint Investigation
Conducted on March 14, 2017**

OUTSTANDING ALLEGED VIOLATION

The following alleged violation was noted during the investigation conducted on January 30, 2017 and remains outstanding:

Site Operating Plan 4.18.2 / 30 Texas Administrative Code §330.121(a) – General

Daily inspections of daily cover shall be documented on the cover log. Inspection of daily cover areas includes visual verification of the thickness of cover, inspection for erosion, exposed waste or other damage within 24 hours after a rainfall event of 0.5 inches or more, and inspection for seeps.

Blue Ridge Landfill failed to document daily inspections of daily cover on the January 2017 cover log. The "Inspection Date of Daily Cover" column of the Cover Application Log was not completed.

Blue Ridge Landfill is requested to document daily inspections of daily cover and submit documentation to the TCEQ Houston Region Office to verify compliance.

Investigation Comments:

INTRODUCTION

On March 1, 2, 7, 13 and 14, 2017, the Texas Commission on Environmental Quality Houston Region Office Waste Section (TCEQ Houston) received 20 complaints alleging odors from Blue Ridge Landfill (BRL) located at 2200 FM 521 Road, Fresno (Fort Bend County), Texas 77545. The odors were alleged to have occurred on February 28, March 1, 7, 12 and 14, 2017.

On March 14, 2017, Mr. Richard Blackney, Environmental Investigator for the TCEQ Houston Region Office, conducted an unannounced Odor Complaint Investigation at BRL and the area surrounding it.

BACKGROUND

During a Waste Section investigation conducted on January 30, 2017, (TCEQ Consolidated Compliance and Enforcement Data System Investigation No. 1394134), an alleged violation was noted for failure to document daily inspections of daily cover on the January 2017 cover log. This violation remains outstanding.

GENERAL FACILITY AND PROCESS INFORMATION

BRL's authorization numbers from the TCEQ Central Registry database are included in Attachment 1. BRL is a Type I landfill which is authorized to operate by TCEQ Municipal Solid Waste (MSW) Permit No. 1505A.

The landfill is authorized to dispose of MSW including household solid waste, commercial solid waste, construction and demolition waste, and yard waste; Class 1, Class 2, and Class 3 non-hazardous industrial solid waste; and certain special wastes. Liquid waste will be accepted at the Liquid Waste Bulking Facility for stabilization and subsequent disposal. BRL may not accept regulated hazardous waste, prohibited polychlorinated biphenyls, or untreated medical waste.

The waste acceptance hours are Monday through Friday, 4:00 am to 5:00 pm, and Saturdays from 5:30 am to 12:00 pm. The surrounding land use includes industrial facilities and residential subdivisions.

Complainant Information:

See confidential files (TCEQ Incident Nos. 253614, 253616, 253651, 253653, 253655, 253677, 253854, 254102, 254192, 254194, 254202, 254203, 254205, 254206, 254207, 254208, 254210, 254211, 254212 and 254213).

Description of Alleged Effects:

Breathing difficulty, headache and nausea were alleged as occurring due to the odors.

Meteorological data at the time of the odor survey:

Resultant Wind direction: North-Northeast

Resultant Wind Speed: 4.6 mph

Outdoor Temperature: 51.1 °F

Meteorological data taken from TCEQ's continuous air monitoring stations (Attachment 2).

Odor Survey (OS):

The investigator arrived at the first survey point located at the 2500 block of Nail Road in Fresno. OS No. 1 took place downwind of BRL and was conducted at 9:15 a.m. Odors typical of landfill garbage were detected during four of the 15 minutes spent at OS site No. 1, averaging to very light.

BLUE RIDGE LANDFILL - FRESNO

3/14/2017 to 6/30/2017 Inv. # - 1400999

Page 3 of 5

The investigator went to OS No. 2 located near the intersection of Kentucky Rd and Evergreen St in Fresno. OS No. 2 took place downwind of BRL and was conducted at 9:34 a.m. No landfill odors were detected during the 15 minutes spent at OS site No. 2.

Aerial view maps of the OS locations and the OS logs are included in Attachment 2.

Summary of on-site investigation:

Following the odor survey, the investigator arrived at BRL, and met with Mr. Charles Walker, Division Manager, to whom the purpose and scope of the investigation were explained.

BRL receives Class I waste in its Class 1 disposal cell Monday through Friday, and receives MSW in the MSW cell Monday through Saturday. Six inches of soil is applied to the Class 1 cell and MSW cell at the end of each operating day. The investigator viewed the MSW and Class 1 working faces, by which piles of soil were observed. The investigator obtained a copy of the MSW working face cover log for March 2017 (Attachment 3).

BRL has a system of misters for the purpose of neutralizing odors. The investigator viewed the misting system in operation, and also observed that the vapor odor control system along the eastern boundary of the landfill was operational. New covers had been installed on the two 107,000-gallon leachate tanks.

Description of Odor:

Odors typical of landfill garbage were detected during the odor survey.

Description of the Effects on the Investigator:

No health effects were experienced by the investigator.

Description of the Terrain Features of the Area:

Terrain is flat with residences and businesses.

Location of the Source of the Odor:

The alleged source of the odor is BRL.

Odor Frequency, Intensity, Duration, and Offensiveness FIDO Chart Evaluation:

According to the FIDO protocol, the odor of landfill garbage is characterized as "offensive". As landfill odors were also detected during odor surveys conducted on January 23, 30, and February 27, 2017, the frequency of odors documented by the investigator was a "monthly" occurrence. According to FIDO protocol, a nuisance condition was not confirmed.

SUMMARY OF INVESTIGATION FINDINGS

OUTSTANDING ALLEGED VIOLATION

The following alleged violation was noted during the investigation conducted on January 30, 2017 and remains outstanding:

Site Operating Plan 4.18.2 / 30 Texas Administrative Code §330.121(a) – General (Category C3)

Daily inspections of daily cover shall be documented on the cover log. Inspection of daily cover areas includes visual verification of the thickness of cover, inspection for erosion, exposed waste or other damage within 24 hours after a rainfall event of 0.5 inches or more, and inspection for seeps.

Blue Ridge Landfill failed to document daily inspections of daily cover on the January 2017 cover log. The "Inspection Date of Daily Cover" column of the Cover Application Log was not completed.

Blue Ridge Landfill is requested to document daily inspections of daily cover and submit documentation to the TCEQ Houston Region Office to verify compliance.

OUTSTANDING ALLEGED VIOLATION(S)

Track Number: 645984

Compliance Due Date: To Be Determined

Violation Start Date: Unknown

30 TAC Chapter 330.121(a)

PERMIT 1505A, Site Operating Plan 4.18.2

The Landfill Manager shall document, on a daily basis, that he (or his designee) has visually verified the thickness and condition in the Cover Application Log.

Alleged Violation:

Investigation: 1394134

Comment Date: 06/20/2017

Daily inspections of daily cover shall be documented on the cover log. Inspection of daily cover areas includes visual verification of the thickness of cover, inspection for erosion, exposed waste or other damage within 24 hours after a rainfall event of 0.5 inches or more, and inspection for seeps.

Blue Ridge Landfill failed to document daily inspections of daily cover on the January 2017 cover log. The "Inspection Date of Daily Cover" column of the Cover Application Log was not completed.

Investigation: 1396214

Comment Date: 06/26/2017

Compliance with this regulation was evaluated during the investigation conducted on February 17, 2017.

Investigation: 1400999

Comment Date: 06/30/2017

Compliance with this regulation was evaluated during the investigation conducted on March 14, 2017.

Recommended Corrective Action: Blue Ridge Landfill is requested to document daily inspections of daily cover and submit documentation to the TCEQ Houston Region Office to verify compliance.

Blue Ridge Landfill, Permit No. 1505 A

This is an aerial photograph of a landfill site. The landfill itself is a large, irregularly shaped area in the upper right, characterized by various mounds and depressions. To its left is a large, dark, rectangular area, possibly a pond or a different section of the landfill. A road, labeled '521', runs diagonally from the bottom right towards the center. Two specific locations are marked with white pins and labeled: 'OS 1' is located in the lower left, near a road intersection, and 'OS 2' is located in the lower right, near the road labeled '521'. The surrounding area consists of dark, textured fields and some scattered buildings.

AMT = Amount of cover (soil) in yd³ or alternate daily cover in bags or tarp area
T = Thickness in inches
Methods: A = Tarp Machine, B = Soil by Heavy Equipment, S = Spray-On
Inspect areas with daily cover or alternate daily cover each day the site is in operation and areas with intermediate and final cover weekly or within 72 hours of a rainfall event of 0.5" or more. Inspect all areas in accordance with Site Operating Plan Section 4.18. Additional documentation area on back of form.
Erosion of daily cover must be corrected within 24 hours after the area is accessible. Erosion of intermediate or final cover must be corrected within 5 days of detection unless approved by TCEQ Regional Office. If not corrected within 5 days, attach documentation stating reasons for delay.
Corrective Action: R = Replacing cover material; G = Grading; M = Compacting; S = Seeding
SOP Section 7.74 requires a soil stockpile to be maintained within 1,000 ft of the working face. The amount of soil required is dependent upon the maximum allocated size of the working face. A 50 yd³ soil stockpile is required within 1,000 ft of the Regulated Asbestos-Containing Material (RACM) disposal area.
Signature certifies work accomplished as stated in the Cover Application Log.
