

Application Process-Request for Product Approval

This application is utilized by the City of Pearland for all products submitted by manufactures and vendors. The process will inform staff of new or improved products that are approved or in review.

1. Complete the application form with pertinent information.
2. Please make sure to review the City' Approved Product list, Standard Details, EDCM, and Specifications to compare, contrast, and make a good case that would help the City to understand benefits of the proposed product.
3. The City will review the application.
4. The City may request the applicant to make a presentation to the staff in a lunch and learn setting.
5. The City may request the manufacturer to use the test the product in the applicable City project for free.
6. The City may elect or reject the product.

Application-Request for Product Approval

Name: **Request Date:**
Phone: **Email:**
Manufacturer of Product:
Product Description:

1. Please state why your product should be accepted in Pearland?
2. How does your product differ, or how is it unique?
