Customer Agreement:

I understand that by completing and signing this document I take full responsibility for any delinquent utility bills due to the City of Pearland for the services provided at the above-mentioned service address. I understand that we are financially responsible for any damages incurred to meter(s), meter box(es), service line, and/or the electronic measuring information unit (endpoint) will be charged to the contractor/owner listed on this application. Unless I am requesting a downsized meter. I understand that this account will not be closed until the structure and water meter at the above-mentioned service address passes final inspection. I understand that the city will not transfer water service out of the name of the contractor or undersigned applicant until the meter has passed the final water meter inspection and the City has determined that the meter and the endpoints are functioning properly. The final inspection will take place after a final meter reading is made.

To be evaluated/considered for meter downsizing feasibility, the below chart must be completed:

Domestic Demand (Continuous)	Evenue	Number		Total
Eixture Type (standardized at 60 pai)	<u>Example</u> Fixture	of		Fixture
Fixture Type (standardized at 60 psi)	Value	Fixtures		Value (gpm)
